

Economic Intelligence Committee
DCID 3/1, 23 April 1965 (New Series) ~~CONFIDENTIAL~~

(In Dec '63, Ex Sec, USIB, requested report on how EIC in the past had implemented the PNIOs and actions taken or planned with respect to future implementation. New formulation of PNEIOs (Feb '64) specifically identified problems within the context of PNIO and identified critical deficiencies with respect to the problems that appeared to require exceptional collection effort. Corrective measures will normally be implemented by member agencies, within their respective areas of responsibility, through their own facilities)

Production:

Produce, as appropriate, interdepartmental economic intelligence on subjects which transcend the competency of a single dept. or agency.

Coordination: Arrange, as appropriate, for coordination of individual IB agency reports deemed of sufficient national security importance to warrant solicitation of concurrences from the reps of other IB agencies.

Review needs for economic research and analysis pertaining to foreign areas and of importance to the national security and develop ways in which recognized deficiencies could be corrected.

25X1X7 (EIC/SIC joint?? participation in [redacted] Electronics Intelligence Conference. SIC hosts) Electronics SC

25X1X7 [redacted] in Washington co-hosts, ONI and CIA)
Shipbuilding SC

The Chairman of the EIC through liaison with the Chairmen of SIC, GMAIC, and JAEIC shall seek to avoid unnecessary duplication and shall ensure that adequate attention is given to the economic aspects of intelligence questions in areas of joint or overlapping concern.

(para 3.d.)

Review divisions of responsibility indicated - determine how provisions apply, particularly in areas of common or overlapping interest, and recommend to IB appropriate changes.

Periodically survey facilities and arrangements available to support the production of foreign economic intelligence relating to the national security and make recommendations to IB concerning such improvements as may require such IB action.

Review external research projects over \$5000 in support of economic intelligence production

Scientific Intelligence Committee
DCID 3/5, 23 April 1965 (New Series) ~~Secret~~

To provide mechanism for exchange of S & T information for intelligence purposes related to the national security. (a)

To recommend S & T intelligence objectives within the over-all national intelligence objectives, establish relative priorities on substantive needs, review the scope and effectiveness of collection and production efforts to meet these objectives, and make the necessary substantive recommendations to the depts. and agencies concerned. (b)

Production: (c)

- (1) Drafts of NIEs
- (2) Contributions to NIEs
- (3) Other inter-departmental intelligence as circumstances require.

Coordination: Coordinate intelligence community opinion on significant foreign S & T developments and to produce appropriate reports to the IB thereon. (c)

To provide a mechanism for coordinating as appropriate the S & T intelligence production efforts of the member agencies, including specifically the S & T portions of the National Intelligence Survey. (e)

To determine important deficiencies in S & T intelligence, to take appropriate remedial action, and to recommend to the IB remedial action beyond the authority of the SIC. (d)

To provide staff support, as required by the IB, for international conferences on S & T intelligence. (f)

----- INTER-COMMITTEE COORDINATION RESPONSIBILITIES: -----

The SIC shall share with the JAEIC, GMAIC, EIC and other appropriate IB committees responsibility for the coordination of areas of joint or overlapping concern. Care shall be taken to avoid undesirable duplication in activities and also to ensure that no important scientific, technical or economic intelligence matter is neglected or escapes attention by falling between areas of established separate committee activities. The chairman of each of these committees shall be responsible for ensuring liaison and coordination with the other committees involved on any and all matters of joint or overlapping concern.

Because of the close relationship of the SIC, the JAEIC, and the GMAIC, close coordination is imperative. The SIC should take the initiative in ensuring that such coordination is effected in areas of joint or overlapping concern. This does not imply that SIC should have a supervisory role over the normal activities of JAEIC and GMAIC in their respective fields

Guided Missile & Astronautics Intelligence
DCID 3/4, 23 April 1965 (New Series)

To provide mechanism for fullest exchange of guided missile and astronautics information (a)

To recommend guided missile and astronautics intelligence objectives (b)

Production (c)

 action beyond the authority of the JAEIC.

To provide coordinated staff support, ...
 conferences on atomic energy intelligence. (f)

The JAEIC shall share with the SIC, GMAIC, EIC, and other ...

Make such special reviews of economic intelligence collection requirements and of the distribution and processing of economic intelligence information as may appear useful and develop ways in which improvements could be made.

Ensure that, on intelligence matters affecting the national security, the intelligence community is supported by the full economic knowledge and technical talent available in or to the Government.

Prepare and circulate consolidated periodic lists of intelligence studies and related research conducted within the Government on economies of foreign areas. (Discontinued - Dec'63) Bloc & Free World Areas)

Could still undertake special surveys.

SIC used to circulate annual lists of S & T projects but ~~apparently~~ discontinued in 1962
